

InfaLite

LED Examination Light

*The Flexible Arm allows
the user to adjust the light to
preferred position with ease.*

With a LED light and hands-free motion sensor, both brightness and hygiene have been considered with this examination light.

Brightness

Features a new dimming function to change the brightness.

Hygiene

The light can be turned on and off by waving your hand underneath the sensor.

Energy-saving

Environmentally-friendly and energy saving. The LED light is long lasting and can be turned on quickly.

Specifications

Atom's code. 60216 InfaLite	
Power requirements	Rating: AC100V~240V Power consumption: 13VA Frequency: 50/60Hz
Classification	Class II
Light intensity	Below 500 to above 2000lux *When adjusting the light (if the distance from the irradiation head and the light intensity measurement device is 60cm)
Dimensions	φ5.5(W)×25(D)×87(H)cm *With the flexing arm extended *Not including the F-Rail Attachment/Pole Attachment (sold separately)
Weight	Approx. 1.6kg *Not including the F-Rail Attachment/Pole Attachment (sold separately)

Option

Atom's code. 60217 **F-Rail Attachment**

Atom's code. 60218 **Pole Attachment**
